**Section 5:** The Orthodox Churches were the first ones to have hospitals, and the first to organize and teach indigenous and monastic medicine.

### **ARTICLE III: RULES FOR NOMINATIONS**

**Section 1:** Around 900 years ago, the Church Organized various Knight Hospitaller Orders whose mission was to protect the pilgrims traveling to Jerusalem and tend to the sick and the wounded as a result of the attacks of the Moors.

**Section 2:** The Knights of St. John of Jerusalem and the Knights of St. James are two groups which, even today, are dedicated to healing the sick and doing humanitarian projects, all through monastic and indigenous medicine.

**Section 3:** The Sovereign Ecclesiastical Principality of the Church of the East authorizes the Grand Priory of Turtle Island to set up Priories (healing centers) all across the U.S., under Monastic, Indigenous, Holistic and Dynastic exceptions.

**Section 4:** Each will be run by Knights in the Hospitaller tradition of treating the whole person, body, soul and spirit. Those that work in these centers, as well as the people that come for treatment, do not have to have the same belief in God; they must just have the desire to be able to have a choice of how they want to deal with the condition that they have without the state getting involved.

**Section 5:** All people coming for services must join as a private member of the priory, not the Church, and they have automatic membership to all other priories in the system.

**Section 6:** This is not available to the general public- we do not deal with the public at all. The mission continues to aid the indigenous people, who have suffered greatly the last 500 years, and any card-carrying member of a tribal nation will receive free membership and will get discounted services upon presentation of their proof of tribal status.
